Contents 34 of 34 results on Medline - (((audit* OR "quality improvement*")),ti.ab OR exp "CLINICAL AUDIT"/ OR exp "QUALITY IMPROVEMENT") AND ((NHS OR england OR UK OR "united kingdom" OR "national health service"),ti.ab OR exp "UNITED KINGDOM") [Since 25-Jan-2019]

1. Cardiac Rehabilitation Quality Improvement: A NARRATIVE REVIEW. ................................................................. Page 3
2. The effects of a new Tendo-Achilles Pathway (TAP) on an orthopaedic department- A quality improvement study. .......... Page 3
3. Development and implementation of a national quality improvement skills curriculum for urology residents in the United Kingdom: A prospective multi-method, multi-center study. ........................................................................ Page 3
4. Modifying a Paediatric Rational Prescribing Tool (POPI) for Use in the UK. .............................................................. Page 3
5. Peri-operative and oncological outcomes of radical prostatectomy for high-risk prostate cancer in the UK: an analysis of surgeon reported data. .................................................................................. Page 3
6. "Struggling with practices" - a qualitative study of factors influencing the implementation of clinical quality registries for cardiac rehabilitation in England and Denmark...................................................................... Page 4
7. Utilisation of the principles of the Armed Forces Covenant in NHS Trusts and Clinical Commissioning Groups across England: a freedom of information investigation. ................................................................. Page 4
8. 2015 UK software audit of hepatobiliary scintigraphy. ................................................................................................. Page 4
9. UK national audit of safety checks for radiology interventions. ..................................................................................... Page 4
10. Engagement with peer observation of teaching by a dental school faculty in the United Kingdom. ................................ Page 4
12. Registration audit of clinical trials given a favourable opinion by UK research ethics committees. ............................ Page 5
13. Factors associated with receiving surgical treatment for menorrhagia in England and Wales: findings from a cohort study of the National Heavy Menstrual Bleeding Audit. ...................................................... Page 5
14. Outcomes of urgent suspicion of head and neck cancer referrals in Glasgow................................................................. Page 5
15. Falling perinatal mortality in twins in the UK: organisational success or chance? ............................................................ Page 6
16. International comparison of acute myocardial infarction care and outcomes using quality indicators........................ Page 6
17. Use of a proforma to aid in reducing coercion into informal admission for acute adult psychiatric inpatients in the U.K. .... Page 6
18. Canine dystocia in 50 UK first-opinion emergency care veterinary practices: clinical management and outcomes......... Page 6
19. Trends in surgical and catheter interventions for isolated congenital shunt lesions in the UK and Ireland........................ Page 6
20. Improved adenoma detection with Endocuff Vision: the ADENOMA randomised controlled trial. ................................. Page 7
21. Structured lifestyle education for people with schizophrenia, schizoaffective disorder and first-episode psychosis (STEPWISE): randomised controlled trial. ................................................................. Page 7

22. Refractory status epilepticus in adults admitted to ITU in Glasgow 1995-2013 a longitudinal audit highlighting the need for action for provoked and unprovoked status epilepticus. ..................................................................................................................................................................................... Page 7

23. An observational study of the use of acute hospital care by people with intellectual disabilities in England. ..................... Page 8

24. Implementation of tranexamic acid for bleeding trauma patients: a longitudinal and cross-sectional study. ......................... Page 8

25. Genome-Wide Association Study Meta-Analysis of the Alcohol Use Disorders Identification Test (AUDIT) in Two Population-Based Cohorts. ................................................................................................................................................................................................................................. Page 8

26. Transparency of the UK medicines regulator: auditing freedom of information requests and reasons for refusal. ............ Page 8

27. Admissions for hypoglycaemia after 35 weeks of gestation: perinatal predictors of cost of stay. .................................................. Page 8

28. Current epidemiology and antenatal presentation of posterior urethral valves: Outcome of BAPS CASS National Audit. ...... Page 9

29. Analysis of whole genome-transcriptomic organization in brain to identify genes associated with alcoholism. ................ Page 9

30. Standards and core components for cardiovascular disease prevention and rehabilitation. ................................. Page 9

31. Risk factors for surgical site infections in neurosurgery. ........................................................................................................ Page 9

32. Diagnosis and referral delays in primary care for oral squamous cell cancer: a systematic review. ........................... Page 10

33. Associations between childhood deaths and adverse childhood experiences: An audit of data from a child death overview panel. .................................................................................................................................................................................................................................................. Page 10

34. An organisational participatory research study of the feasibility of the behaviour change wheel to support clinical teams implementing new models of care. .................................................................................................................................................................................................................................................................................. Page 10
1. Cardiac Rehabilitation Quality Improvement: A NARRATIVE REVIEW.
Authors Moghei, Mahshid; Oh, Paul; Chessex, Caroline; Grace, Sherry L
Source Journal of cardiopulmonary rehabilitation and prevention; Jan 2019
Publication Date Jan 2019
Publication Type(s) Journal Article
PubMedID 30720641
Database Medline

2. The effects of a new Tendo-Achilles Pathway (TAP) on an orthopaedic department- A quality improvement study.
Authors Hutchison, Anne-Marie; Laing, Hamish; Williams, Paul; Bodger, Owen; Topliss, Claire
Source Musculoskeletal science & practice; Feb 2019; vol. 39; p. 67-72
Publication Date Feb 2019
Publication Type(s) Journal Article
PubMedID 30513403
Database Medline

Authors Pallari, Elena; Khadjesari, Zarnie; Green, James S A; Sevdalis, Nick
Source American journal of surgery; Feb 2019; vol. 217 (no. 2); p. 233-243
Publication Date Feb 2019
